

**New**

- Displayed high yield potential in both 2013 and 2014 tests
- Resistant to Brown Stem Rot and SCN
- Strong, inherent spring emergence
- Taller plant type with good SDS tolerance

Characteristics	
Plant Height	<b>Tall</b>
Plant Width	<b>Medium</b>
Flower	<b>Purple</b>
Hilum	<b>Black</b>
Pubescence	<b>Light Tawny</b>
Pod	<b>Tan</b>
SCN Race	<b>3=E, 14=G</b>
Phytophthora Root Rot Gene	-

Management Recommendations	
Irrigation	<b>**</b>
No Till	<b>***</b>
Wide Rows	<b>***</b>
Narrow Rows	<b>**</b>
Higher Populations	<b>NR</b>
Lower Populations	<b>****</b>
High Organic	<b>***</b>
Clay and Variable	<b>****</b>
Light and Sandy Soils	<b>****</b>

## Glyphosate Tolerant

Bayer®, the Bayer Cross®, Liberty®, LibertyLink® and the Water Droplet Design are trademarks of Bayer. Genuity® and Roundup Ready 2 Yield® are registered trademarks of Monsanto Technology LLC used under license. VPMAXX® is a trademark of Pioneer. VPMAXX® brand seed is distributed by AgVenture Inc. © 2016 AgVenture, Inc. Always follow grain marketing, stewardship practices and pesticide label directions. Varieties that are glyphosate tolerant (including those designated by the letter "R" in the product number) contain genes that confer tolerance to glyphosate herbicides. Glyphosate herbicides will kill crops that are not tolerant to glyphosate. Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post-emergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
